IN THE WILLIAMS FORK FORMATION,)	Docket No. _____
GARFIELD COUNTY, COLORADO)	

APPLICATION

Encana Oil & Gas (USA) Inc., by and through its attorneys, Beatty & Wozniak, P.C., respectfully submits this Application to the Colorado Oil and Gas Conservation Commission ("Commission") for an order allowing an exception location for a well to be completed in the Williams Fork Formation in the NW¼NW¼, Section 12, Township 7 South, Range 92 West, Garfield County, Colorado ("Application Lands"). In support thereof, Encana Oil & Gas (USA) Inc. (referred to herein as "Applicant") states and alleges as follows:

1. The Application Lands are subject to Commission Rule 318.a. Rule 318.a. establishes a well drilled in excess of two thousand five hundred (2,500) feet in depth shall be located not less than six hundred (600) feet from any lease line, and shall be located not less than one thousand two hundred (1,200) feet from any producible or drilling oil and gas well when drilling to the same source of supply, unless authorized by order of the Commission upon hearing.
2. Applicant intends to drill and complete the Twin Creek 12-4D1 Well with the following bottomhole location: 1,035' FNL, 660' FWL in Section 12, Township 7 South, Range 92 West, Garfield County, Colorado. A plat reflecting the location is attached as Exhibit A. The Twin Creek 12-4D1 Well is located in Uncommitted Tract A, as illustrated on Exhibit A, and is within the exterior boundaries of the Hunter Mesa Unit.
3. Applicant seeks an exception from Rule 318.a. in that it seeks to drill and complete the Twin Creek 12-4D1 Well as a directional well at a bottomhole location:
 - a. Approximately 51 feet south of the northern lease line of Uncommitted Tract A and 279 feet north of the southern lease line of Uncommitted Tract A;
 - b. Approximately 525 feet from the proposed Twin Creek 12-5A2 Well located in the SW¼NW¼ of Section 12, Township 7 South, Range 92 West, which is included in the Hunter Mesa Unit; and
 - c. Approximately 490 feet from the proposed Twin Creek 12-4A1 Well located in the NW¼NW¼ of Section 12, Township 7 South, Range 92 West and within Uncommitted Tract B, as illustrated on Exhibit A, which is also within the exterior boundaries Hunter Mesa Unit.
4. There will be no well pads on the Application Lands. The surface hole location of the Twin Creek 12-4D1 Well is 2,549' FNL, 1,590' FWL of Section 12, Township 7 South, Range 92 West and is located on Well Pad F12E in the SE¼NW¼ of Section 12, Township 7 South, Range 92 West within the Hunter Mesa Unit, as illustrated on Exhibit A. The Twin Creek 12-4D1 Well will share a common pad with eight wells.
5. That in order to prevent waste and protect correlative rights of all owners in the area surrounding the proposed location, it is reasonable and equitable to permit an exception location to allow the drilling and completion of a well in the described location. Applicant also asserts that Commission Rule 318.c. provides for exception locations when geologic, environmental, or topographic conditions warrant a variance from field rules. Applicant believes, and therefore states, that geologic conditions and mineral owner interest matters exist that warrant a variance for the location of the Twin Creek 12-4D1 Well.

6. Applicant asserts the Twin Creek 12-4D1 Well can be developed in a manner consistent with protection of public health, safety and welfare.
7. Contiguous and cornering owners of lands toward whom the well is located and are affected by the exception location and have not executed waivers consenting to this exception location are set forth on Exhibit B attached hereto. Applicant is the operator of the Hunter Mesa Unit and of the offset leases to the proposed exception location and royalty owners comprise the majority of those parties identified on Exhibit B. There are no additional working interest owners.
8. The undersigned certifies that copies of this Application shall be served on each interested party within the next seven days as required by Rule 503.d.

WHEREFORE, Applicant respectfully requests that either the Director approve this request pursuant to Rule 502.b(1) or, if necessary, this matter be set for hearing at the next regular hearing date, that notice thereof be given as required by law and that upon such hearing the Commission enter its order:

A. Determining that the Twin Creek 12-4D1 Well may be drilled and completed from the Williams Fork Formation in the Application Lands at the aforesaid location.

B. Granting any other relief necessary to prevent waste and protect correlative rights of the owners.

DATED this 8th day of April, 2010.

Respectfully submitted,

ENCANA OIL & GAS (USA) INC.
