### 15. Comments:

Rail road is greater than 1 mile. Reference area for reclamation is immediately adjacent to the well pad to the west and located on ground that will not be disturbed. We are submitting this 2A and From 2 under Exigent circumstances and ask the approval of the 2A and 2 is done as quickly as possible. The circumstances related to this well are that the Previous well Apache-Gold 34-20R a horizontal well encountered Oil in the heel of the bend on the well bore which caused us to lose the Horizontal portion of the well bore, effectively preventing us from reaching our original target. This well "Woolly Bugger 34-20" will effectively test that target via directional drilling instead of Horizontally drilling. By approving this 2A and 2 in a timely manner we will be able to retain the rig we are currently drilling with and save our company considerable costs. If you have any questions please do not hesitate to contact me. I can be reached at 303-226-1316 or my cell at 303-921-9237 or via email. Also please find the waivers releasing rights to comment and the 20 day period attached to the Form 2 from the LGD and land owner as well as the operator Pine Ridge Oil & Gas LLC. Thank you Timothy J. Engel

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
