Please proceed with the revised reclamation plan. As always communication with the surface owner and or surface owner's tenant is extremely important.

Dear Ms. Ash,

As requested by Mr. Joe Aldridge of NuStar Energy L.P, I am submitting a PDF copy of a reclamation plan for the re-vegetation of an area of soil that was affected by a crude oil release at the Foster Lease near Brandon, Colorado (attached). The plan was prepared in response to your email correspondence of August 28, 2007 following an inspection of the above-referenced location by Mr. Mike Leonard and Mr. Bruce Fickenscher. The plan was developed after telephone consultation with Bruce Fickenscher and a reclamation company in Pueblo, Colorado.

Our records indicate that the plan was delivered to the COGCC at 10:29 a.m. on September 12, 2007 via Federal Express and signed for by M. Greenstein. It was CRA's understanding that you had received the plan within the time constraints established in your email. Please let me know if you would like me to send another copy.

Sincerely,

Travis Kogl, P.G.
