Dave,

I concur with your findings and accept the COA per the attached BMP to the 2a form.

Thanks,

Cheryl Johnson
Regulatory Analyst
Noble Energy Inc.

Cheryl,

I have been reviewing the Cricket C22-30D Tank **Form 2A** (#400053970). COGCC requests the following clarifications regarding the data Noble has submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA).

1. **Water Resources (Section 14):** Form 2A also indicates the depth to groundwater to be 15 feet bgs for a well located 982 feet away from the proposed tank pad. COGCC guidelines require designating all locations with shallow groundwater a **sensitive area** (which Noble has already indicated on the Form 2A) and requiring the following condition of approval (COA):

COA 5 - Operator must implement best management practices to contain any unintentional release of fluids.

COGCC would appreciate your concurrence with attaching this COA to the Form 2A permit prior to passing the OGLA review. If you have any questions, please do not hesitate to call me at (970) 309-2514 (cell), or email. Thanks.

Dave
