

## HYDROLOGY MAP

A topographic map segment showing a river system and surrounding land. The Godfrey River flows from the upper left towards the center. A horizontal ditch, labeled "UNION DITCH 470'", runs across the middle. Another ditch, labeled "DITCH 4680", branches off to the right. A circular area with a dashed border is centered near the intersection of the river and the main ditch; it is labeled "1000' RADIUS" and contains the text "FIVE RIVERS K03-25". Contour lines are drawn throughout the map, with labels such as 4678, 4680, 4689, 4708, 4710, 4711, and 4720. In the upper left corner, the word "TOWN" is partially visible. A scale bar at the bottom right indicates a distance of 1000 feet, with the text "1\"=1000'" below it. Various other features like small black squares and colored dots are scattered across the map.
