NW/4 Sec. 22-T4N-R67W, Weld County, Colorado

Dear Mr. Neslin,

HRM Resources, LLC respectfully requests that the Director grant an exception to Rule 318.A(c) for the above wells. These wells are spotted as above, on a single site, in order to maximize future land use possibilities and minimize surface disturbance. Per COGCC Rule 318.A(c), a GWA well surface location shall not be less than 50' from an existing well. These surface locations are greater than 50' from an existing well for the above specified reasons. Please see the attached waiver from Milliken Investors, LLC consenting to the above surface location and waiving their rights under rule 318.A(c).

This well will be drilled under the conditions of a surface use agreement. A copy of the executed surface use agreement is on file with the commission; document #2049908.

Sincerely,

Clayton L. Doke for
Andy Peterson, VP Operations
