**CONDITIONS OF APPROVAL, IF ANY:**

**All representations, stipulations and conditions of approval stated in this Form 2A for this location shall constitute representations, stipulations and conditions of approval for any and all subsequent operations on the location unless this Form 2A is modified by Sundry Notice, Form 4 or an Amended Form 2A.**

Operator must implement best management practices including, but not limited to, construction of a berm or diversion dike, site grading, or other comparable measures sufficiently protective of the proximate dirt irrigation ditches to the southeast to contain any release of drilling, completion, or produced fluids.

Location is in a sensitive area because of shallow groundwater; therefore, either a lined drilling pit or closed loop system is required.
