### 15. Comments:

Oxy is both the surface and mineral owner; Rule 305 and 306 are waived. The well pad has been constructed and there is one producing well on this location. Oxy will be drilling an addiitonal 16 wells on this pad. A semi-closed loop system will be used. Oxy will provide appropriate housing for essential personnel in order to conduct safe, efficient drilling operations at this well site. The plat references a "blooie pit;" this is not a pit but a flare box. Per GarCo Vacation Ordinance dated 10-5-1987, CR 213 is now OXY's private property north of Sec 8, 7S, 97W, 6 PM. The CDOW pre-consultation meeting occurred July 16, 2010. Oxy will comply with Notice to Operators (NTO) Drilling Wells on the Roan Plateau (June 12, 2008).

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
