15. Comments:

We will be setting a pumping unit sometime in the future as determined by daily production. The nearest Railroad is greater than 1 mile from location. Reference area is located adjacent to and on undisturbed land South of the Oil and Gas Location. Location photo is reference area photo. Sensitive area due to location in Northern High Plains Designated Groundwater Basin. Separator may be set at meter shed if determined necessary. Even though the current use of the land is CRP, I added the plant community due to the fact that the future land use was designated grassland on the signed SUA. (Guessing surface owner will taking the location out of CRP?) Have also attached a statement from Surface owner regarding the dry reservoirs in the near vicinity of location.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
