Subject: PCU 296-6A3 (05-103-11481) Surface Casing Change

Brian,

This email confirms my verbal approval to change the surface casing setting depth from 4700' (approved on the APD) to 4375' (design)/4395' (expected, based on casing tally). I understand that this setting depth will be sufficient to cover the "A" groove and the "B" groove, which contain fresh water. A Sundry Notice is required for this change. Please email the Sundry Notice directly to my attention. Do not send a hard copy to our Denver office.

Thanks,

David D. Andrews, P.E., P.G.
