Storm Water/Erosion Control	This pad has not been built. Once built this location will be added to the Yellow Creek Stormwater Management Plan. This location will be inspected every two weeks. In the attachments find two documents. The first document "Stormwater Management" discusses the erosion control BMP's that will be used for this pad. The second document is a proposed pre-stormwater plat showing pad design and BMP's. Once the pad is built an "actual" stormwater plat will be in place.
