Permit	Form 2A 400093675 is being returned to draft because: •Section I #3 – well surety id was left blank – this is the plugging bond surety id (as in section I of the form 2) •Section IV – for surface damage – based on the other answers on that page instead of blanket it should be N/A – AND LOOKING AT FORM 2 YOU HAVE AN SUA – therefore the right to construct on the line above that should be SUA; kindly attach the SUA as well or refer in you comments to it being attached to form 2 document •Please use the drop-down and name the documents (see below) •Waiver letter needs to be submitted right-side up (not sideways) = besides it's not a waiver letter as much as a 30 day notice – and that goes with form 2 (therefore drop it here?)	9/20/2010 4:25:52 PM
