15. Comments:

Nearest surface water is a dirt irrigation ditch east of location. WW permit 36534, SW of location was used for distance and static. A second WW, permit 10245, SE of loc, has depth of 8 ft. Sensitive area was ckd due to shallow depths. Well #36534 is used strictly to irrigate owners' grass lawn, probably because this area is in "limited use and quality" specified H2O class.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
