

KINDER MORGAN

CO₂ COMPANY L.P.

March 1, 2007

Joe Davis / General Partner
#6 Twelve Pine Ct.
The Woodlands, TX. 77381

As per our previous conversations, please be advised that Kinder Morgan CO₂ Co. L.P. plans to exercise their mineral lease and enter your property for the purpose of drilling one (1) CO₂ well to be named DC-8. The entry for well DC-8 will be the SE ¼ of SE ¼ Section 13, Township 40 North, Range 18 West, N.M.P.M, Dolores County, Colorado and is currently marked by survey stakes for your viewing. The additional activities of this entry will include, building the necessary access road and adding additional Right of Way (ROW) for the connecting flow line.

Land is described as dry land pasture.

In accordance with the Colorado Oil and Gas Conservation Commission (COGCC) rule 305, please receive this 30 day intent to drill notice to this effect. Notice starting on this 1st day of March, in the year 2007, as the day of this notice being hand delivered to your partner, Allen Heaton, at his home in Cortez, Colorado. This procedure of contact through Allen was authorized by your request due to your working in Wyoming. A notice will also be posted at the properties mentioned above. Work on this project is scheduled to begin during the summer of 2007.

Also in accordance with COGCC rule 305, please receive the following required attachments and additional information for your use:

- 1) A copy of COGCC rule 305 and 306.
- 2) Copy of 'Oil and Gas Well Notification, Consultation and Reclamation Rules'.
- 3) A copy of FAQ's.
- 4) A plat showing planned well site, access road and additional pipe line ROW.
- 5) Operator information as follows; Kinder Morgan CO₂ Co. L.P., 17801 Hwy 491, Cortez, CO. 81321
- 6) Company contact as follows; Bob Clayton, Production supervisor, 970-882-5507 (address same as above)
- 7) Estimated date of beginning operations, 5/07 or later.
- 8) Please understand that surface owner has the responsibility for notifying any affected Tenant of the proposed operations.
- 9) A return addressed, postage prepaid envelope to meet rule 306 requirements.

Drilling operations will not begin until all required State, Federal and County permits have been issued.

No operations other than survey and on-site inspections will begin until the operator (Kinder Morgan CO₂) makes a fair and reasonable payment to you as the land owner for any surface and crop damage, use and additional ROW which will all be addressed in the completed lease agreement we are currently working on.

I would like to also mention that it has been a great pleasure working with the both of you.

Sincerely,

Bob Clayton
Production Supervisor
