Subject: Bernhardt State PC N 36-17 Tank Form 2A Document # 400102480, Noble

---

Mari,

The COGCC is reviewing the Form 2A (#400102480) for the Noble Bernhardt State PC N 36-17 Tank location, located in the SENE Sec 36 T5N R67W Weld County, Colorado. The COGCC requests the following changes regarding the data submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA).

1. A review of the COGCC database indicates that the proposed location is on the Noble EMC state 36-1 location (Location ID#327777). The COGCC suggests changing the Form 2A to Amend Existing Location #327777 instead of a new location.
2. **Conditions of Approval:** The following condition of approval (COA) will apply to the Bernhardt State PC N 36-17 location:
  - Operator must implement site-specific best management practices in accordance with good engineering practices, including, but not limited to, construction of a berm or diversion dike, site grading, or other comparable measures, sufficient to prevent a release of drilling, completion, produced fluids, or chemical products from entering the drainage located 330 feet south-west of the oil and gas location.

The COA is consistent with Nobles proposed oil and gas operations, however, COGCC would appreciate your concurrence with the COA prior to passing the OGLA review.

Thanks,

Arthur

Arthur W. Koepsell, P.G.
