RE: Drill site for

EMERALD 93X & EMERALD 94X
1272 FSL & 1062 FEL
(SE SE) Section 26 T2N, R103W, 6th PM
Rio Blanco County, Colorado

Dear surface owner,

Rio Blanco County Assessor records indicate you are the owner of the surface in the SE /SE Section 26, Township 2 North, Range 103 West

Pursuant to the Colorado Oil and Gas Commission Rule 305, this is the legal notification that Chevron will begin the construction of a drillsite for the captioned well to be located 1272 feet from the South line and 1062 feet from the East line. This is a new location for two Weber formation wells, Chevron that proposes to drill the summer of 2011.

Enclosed please find a copy of the COGCC publication "Oil and Gas Well Notification, Consultation and Reclamation Rules". With respect to the notice of drilling, a self addressed, postage prepaid post card is enclosed for the surface owner to request a preference to the consultation requirement under COGCC Rule 306. Your choices are **YES** for consultation request or **NO** to waive your drilling consultation right. These cards will remain on file in the Chevron office for review.

Please be advised that construction of this well site is scheduled to begin in SPRING 2011 and actual drilling may begin as soon as the summer of 2011.

If you have any questions, or if you would like further information concerning access or operations, please call Jeff Roedell – Technical Team Leader (970-675-3816).

Sincerely,

A handwritten signature in blue ink, appearing to read "Diane L Peterson".
