RE: COGCC Rule 318 Drill Site Consent for – **Emerald 93X and Emerald 94X  
1272' FSL & 1062' FEL  
SE SE Section 26 T2N, R103W**

Dear Lease Holder,

Rio Blanco County Assessor records indicate that Twin Arrow Inc. is one the lease holders of the oil and gas lease located in the NW SE Township 26 North, Range 103 West.

Pursuant to Colorado Oil and Gas Commission Rule 318, Chevron asks Twin Arrow to formally acknowledge notification and confirm that Twin Arrow has no objection to the locations planned for Chevron's Emerald 93x and Emerald 94x wells. Enclosed please find a copy of the surveyor plats with surface locations and proposed bottom hole targets in the Weber producing formation. Both wells bottom hole targets are within 600' of the Rangely Weber Sand Unit boundary line and the well pad surface location is within the Rangely Weber Sand Unit.

For your convenience, a self addressed, postage prepaid post card is enclosed. Please check "NO" for no objection to these well locations, or "YES," if Twin Arrow objects to the well location. Please also sign and date the card where indicated, and return the original to the attention of Diane Peterson at the address above. Please retain a copy for your records.

Please note that construction of this well site is scheduled to begin in spring of 2011, and actual drilling may begin as soon as the summer of 2011. **If you have any questions, or if you would like further information concerning access or operations, please call Jeff Roedell – Technical Team Leader (970-675-3816).**

Sincerely,

Diane L Peterson
