Lisa

Thank you for the information regarding this location. I would appreciate Great Western's approval of the following changes to the Form 2A:

- 1) I would like to attach to the Form 2A the BMPs that Great Western has provided, along with the following condition of approval: "The attached Best Management Practices supplied by the operator must be followed at the location."
- 2) Since shallow ground water is present at the location it should be considered a sensitive area. Please approve me changing the sensitive area designation from No to Yes.
- 3) Great Western has indicated to me that a closed loop system will be used. Please approve me changing the Form 2A to indicate that Closed Loop drilling will be used.

Please contact me if you have any questions.

Rick

Rick –

I have attached a document that provides information regarding neighboring property mitigation efforts. I am hopeful these explanations will satisfy your concerns.

Thank you.
