15. Comments:

The closest water well, Permit No. 45458-MH, was confidential. Depth to groundwater was taken from water well Permit No. 50622, which is the closest water well with depth to groundwater information. DOW consultation was conducted on December 21, 2010. Site is located within 300' of surface water, however, per Dave Kubeczko, the site does not fall under rule 317B or the 300' Buffer Rule as it is not an oil and gas wellsite. Site is also outside of the 100 year flood plain. BMPs will be utilized in construction to protect surface water resources. Bonding for this site is being secured at the time of application, and will be in place shortly. Notification will be filed with COGCC. Right to construct is granted by the BLM ROW Lease # COC74728. Please see attached documentation. Form 12 will be submitted to the COGCC at the appropriate time.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
