Subject: RE: BRINKEMA 943-31-34 Form 2A (Doc 400128724) for Black Raven Energy

Hi Rick,

- 1) I concur with the change.
- 2) I will let our surveyor know the changes that need to be made on his future Location Drawings.

Thank you for all your hard work!

Janice

Subject: BRINKEMA 943-31-34 Form 2A (Doc 400128724) for Black Raven Energy

Hi Janice,

The COGCC is reviewing the Form 2A oil and gas location assessment for the BRINKEMA 943-31-34 well location in the SWSE Sec31 T9N R43W, Phillips County, and requests the following changes to the Form 2A:

- 1) Water Resources:** The nearest water well (permit 146748) contains total well depth information but not depth to water or static water level information. The water well with permit number 4760-F has a recorded static water level of 172 feet. A review of several water wells in this area suggests this is a representative number for depth to water. Therefore, please approve me changing the depth to ground water from 242 feet to 172 feet.
- 2) Location Drawing:** Note that on future Form 2A submittals the Location Drawing should include the distance and bearing from the reference point to any improvement within 400 feet of the location. Since the Location Plat attached the Form 2 includes this information, I can accept the Form 2A.

Please contact me if you have any questions regarding this Form 2A.

Best Regards,

Rick Allison, P.G.
