Hi Arthur,

The COA's for this well are ok.

Thanks!

Georgina Kovacik

Subject: Bauer 14-8 TR Form 2A Document #400127181, Pioneer

Georgina,

The COGCC is reviewing the Form 2A (#400127181) for the Pioneer Bauer 14-8 TR location, located in the SWSW Sec 8 T32S R65W Las Animas County, Colorado. The COGCC requests the following changes regarding the data submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA).

- 1. Conditions of Approval:** The following conditions of approval (COAs) will apply to the Sabo 13-15 location:
 - Operator must implement site-specific best management practices in accordance with good engineering practices, including, but not limited to, construction of a berm or diversion dike, site grading, or other comparable measures, sufficient to prevent a release of drilling, completion, produced fluids, or chemical products from entering the pond and drainage located 100 feet west of the proposed oil and gas location.
 - Prior to putting production pits into service Pioneer shall submit an Earthen Pit Report/Permit Form 15 to the Director for approval in accordance with rule 903.a.. No production water shall be placed in a pit without a pre-approved form 15.
 - Location is in a sensitive area because of potential for adverse impacts to ground water/surface water; therefore all pits will be lined.

These COAs are consistent with Pioneers proposed oil and gas operations, however, COGCC would appreciate your concurrence with the COA prior to passing the OGLA review.

If you have any questions or concerns, please do not hesitate to contact me.

Thanks,

Arthur
