* P/A = Plugged and abandoned

** Well and all associated liability was sold to Koch Oil in 2010 during the White River Dome sale.

***Location was included in the September 2010 Form 27 submittal and has been investigated and undergone treatment.

**** Location was included in the September 2010 Form 27 Submittal

[illegible]

EC and SAR were not reported by the lab due to the low sample volume.

* The analytical for the specified locations was reported using an alternate name, further details are found in the Location Name tab.

It should be noted that the analytical data was reported using names that were not in accordance with the COGCC Database; the respective locations are identified below. A coverpage explaining the nomenclature change was included for clarification for any respective reader in the analytical data portfolio.
