re: Request for Exception Location – Rule 318(a)
Bledsoe 14-19-5-44
SESW: Section 19
Township 5N, Range 44W

Omimex Petroleum, Inc. and the surface/mineral owner to which this well encroaches respectfully submits and asks that the Director grant an exception to Rule 318(a), requiring a 1,200' setback from any other Niobrara well permitted or in production. The desired location for geologic reasons is for the gas well to be drilled at the above described location which is approximately:

985' from API 05-125-09499;
1010' from API 05-125-09957; and
1180' from API 05-125-09956.

Thank you in advance for your consideration.

Best regards,

Omimex Petroleum, Inc.

Cliff Williams
