5. DESCRIBE PROPOSED OR COMPLETED OPERATIONS

EnCana Oil & Gas (USA) Inc. requested approval to vent this well for 90 days on 9/16/2008. The 3-day buildup was 150 psi; and it blew dead in 2 minutes through a 2" ball valve.

On 12/30/08 the 7-day buildup was 115 psi. We would like to remove this well from the venting list.

3/25/10: 160 psi, blows dead in 6 minutes through 1/4" valve. No fluid. Request 180 day vent period.

9-15-10: Encana requests approval to open and vent the bradenhead on this well indefinitely. A 7-day pressure build-up will be obtained and, if that pressure builds to 150 psi or greater during that time, it will be reported on a Form 17. All 7-day build-up pressure data will be reported in our annual report no later than November 1st.
