Subject: CECIL USX AB35-11D - COGCC review Form 2A (Doc 400125582) for Noble Energy

Hi Rick,

I forgot to note under item no. 6. that a closed loop system will be utilized by Noble. Therefore, Noble concurs with the proposed change noted below regarding the omission of closed loop.

I noted that mud disposal will be offsite, with method of land spreading and request this to remain as noted on the subject permit.

Thank you.

Subject: CECIL USX AB35-11D - COGCC review Form 2A (Doc 400125582) for Noble Energy

Hi Susan,

The COGCC is reviewing the Form 2A oil and gas location assessment for the CECIL USX AB35-11D well location in the NWSW Sec35 T7N R64W, Weld County, and requests the following clarification to the Form 2A:

1) Construction: Closed loop drilling has not been checked on the Form 2A. Closed loop is indicated as a disposal method. However, it is not a disposal method. Therefore, please approve me changing the Form 2A to indicate that closed loop drilling will be used, and to indicate that mud disposal will be offsite – landspreading. I will delete the disposal comment regarding closed loop.

Please contact me if you have any questions regarding this Form 2A.

Best Regards,

Rick Allison, P.G.
