Follow Up Flag: Follow up
Flag Status: Flagged

1. The disturbance will only be 2 acres.
2. Please use the 37 & 48 and delete the 47 & 64.
3. Yes, please change it to yes.

Thank you.

Subject: LANG USX AB 35-03 - COGCC review Form 2A (Doc 40014627) for Noble Energy

Hi Justin,

The COGCC is reviewing the Form 2A oil and gas location assessment for the LANG USX AB 35-05 multi-well pad location in the NENW Sec35 T7N R64W, Weld County, and requests the following clarifications or changes to the Form 2A submitted by Noble Energy:

- 1) Location Drawing:**The Form 2A indicates that the size of the disturbed area will be 3.0 acres. However, the Location Drawing depicts a disturbance of 250' x 300', which is under 2 acres? Please clarify which is correct. If the disturbed area is 3 acres, then the Location Drawing may not show all features within 400 feet of the proposed location, and would require revision.
- 2) NRCS Map Units:** The Form 2A lists four NRCS Map Units, two of which (47 Olney fine sandy loam and 64 Thedalund loam) are mapped east of the Eaton Ditch. If the disturbance will not cross the Eaton Ditch, then why are the two extra units included. Will the flow lines cross these units, or should they be deleted?
- 3) Water Resources:**The proposed location is a sensitive area due to its proximity to the Eaton Canal. Please approve me changing the Sensitive Area Designation from No to Yes.

Please contact me if you have any questions regarding this Form 2A.

Best Regards,

Rick Allison, P.G.
