Attachments: REVISED REFERENCE-2.pdf

Rick,

Here is the revised reference area map. Let me know if you need anything else.

Thanks
Jan

Subject: KUMMER PC LE 23-17 - COGCC review Form 2A (Doc 400140143) for Noble Energy

Hi Jan,

The COGCC is reviewing the Form 2A oil and gas location assessment for the KUMMER PC LE 23-17 well location in the SENE Sec23 T8N R61W, Weld County, and requests clarification of the following information on the Form 2A submitted by Noble Energy:

- 1) Reference Area:**The reference area location is described in the comments as: "The reference area is on undisturbed ground immediately adjacent to and east of the location as shown in the reference area photo facing west." However the Reference Area Pictures does not show land that will remain undisturbed during oil and gas operations. It appears that the Reference Area Picture is identical to the North Facing Location Picture. Please submit Reference Area Pictures of ground that will remain undisturbed by oil and gas operations and provide a clear statement or a map that provides the location of the Reference Area.
- 2) Water Resources:**The location is in the Upper Crow Creek Designated Basin, and therefore is a sensitive area. Please approve me changing the Sensitive Area Designation from No to Yes.

Please contact me with any questions regarding this Form 2A.

Best Regards,

Rick Allison, P.G.
