---

Hi Jennifer,

With Nanette out for a week, perhaps you can address the email below? If so, I can pass the 2A.

Thank you,  
Rick

**Subject:** ELK CREEK 10-14H - COGCC review Form 2A (Doc 400142121) for EOG Resources

Hi Nanette,

The COGCC is reviewing the Form 2A oil and gas location assessment for the ELK CREEK 10-14H well location in the NWN Sec14 T10N R62W, Weld County, and requests EOG's approval of the following changes to the Form 2A:

**1) Sensitive Area Conditions of Approval:** Due to the location's proximity to an intermittent drainage that is tributary to Crow Creek, the following conditions of approval will apply to the Form 2A:

**COA 1:** Operator must implement site-specific best management practices in accordance with good engineering practices, including, but not limited to, construction of a berm or diversion dike, site grading, or other comparable measures, sufficient to protect the intermittent stream located 260 feet west of the oil and gas location from a release of drilling, completion, produced fluids, and chemical products.

**COA 2:** Notify COGCC OGLA Specialist for Northeast Colorado, Rick Allison ([rick.allison@state.co.us](mailto:rick.allison@state.co.us)), 48 hours prior to construction.

Please contact me if you have any questions regarding this Form 2A.

Best Regards,

Rick Allison, P.G.
