Rick, Please post the following statement in the comment section of the Dunn 1-13H Form 2A. Thank you.

The reference area is located South and adjacent to the proposed site as shown in Figure 3 of the well head photo exhibit; therefore no reference map is included.

Hi Pam,

In order to finish processing the Form 2A, please let me know if you plan to submit reference area photographs and a reference area map prior to approval. If not, COGCC needs Continental's approval on adding the following condition of approval to the Form 2A: "A reference area map and reference area pictures must be submitted within twelve (12) months of the Form 2A (3/25/2012)."

Thank you,
Rick

Rick, I do approve of you changing the distance to 2060 feet for surface water. I do not know how I missed that. Thank you.

Subject: DUNN 1-13H - COGCC review Form 2A (Doc 400145696) for Continental Resources Inc.

Hi Pam,

The COGCC is reviewing the Form 2A oil and gas location assessment for the DUNN 1-13H well location in the NENE Sec13 T8N R62W, Weld County, and requests the following clarifications to the Form 2A submitted by Continental Resources, Inc:

- 1) **Reference Area:** Since the current and future land use is non-cropland – rangeland, Reference Area Pictures and a Reference Area Map must be submitted. This information can be submitted up to twelve (12) months from the Form 2A.
- 2) **Water Resources:** An intermittent pond or playa is located approximately 2060 feet south of the location. This feature is visible on topographic maps and aerial photography. Please approve me changing the distance to nearest surface water to 2060 feet.

Please contact me if you have any questions regarding this Form 2A.

Best Regards,

Rick Allison, P.G.
