Subject: Rolls Royce 33-36 Form 2A Document #400162505, Pioneer

Georgina,

The COGCC is reviewing the Form 2A (#400162505) for the Rolls Royce 33-36 location, located in the NWSE Sec 36 T32S R66W Las Animas County, Colorado. The COGCC requests the following changes regarding the data submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA).

1. Sensitive area: Due to the Gulnare-Allens Park complex, 5 to 35 percent slopes soil type the site should be considered a sensitive area.
2. **Conditions of Approval:** The following conditions of approval (COAs) will apply to the Rolls Royce 33-36:
 - Prior to putting production pits into service Pioneer shall submit an Earthen Pit Report/Permit Form 15 to the Director for approval in accordance with rule 903.a.. No production water shall be placed in a pit without a pre-approved form 15.
 - Location is in a sensitive area because of potential for adverse impacts to ground water/surface water; therefore all pits will be lined.
 - Reference area pictures shall be provided to the COGCC within 12 months of approval of the form 2A.

These COAs are consistent with Pioneer's proposed oil and gas operations, however, COGCC would appreciate your concurrence with the COA prior to passing the OGLA review.

If you have any questions or concerns, please do not hesitate to contact me.

Thanks,

Arthur
