Subject: WALDEN PC GD28-04 well and tank Form 2As (Docs 400160680, 400160682) Noble Energy

Hi Justin,

The COGCC is reviewing the Form 2A for the WALDEN PC GD28-04 well and tank locations in the NWNW Sec28 T12N R61W, Weld County, and requests Noble Energy's approval of the following change to BOTH Form 2As:

1) Water Resources: Both locations are in a sensitive area because: 1) it is likely that shallow ground water is present at the locations and the subsurface is comprised of permeable materials (see water well permit 80002); 2) the locations both lie within the Upper Crow Creek Designated Basin and therefore a sensitive area by definition. Therefore, please approve me changing the Sensitive Area Designation on both Form 2As from No to Yes.

Please contact me if you have any questions regarding the referenced Form 2As.

Best Regards,

Rick Allison, P.G.
