Hi Rick,

I agree with you removing the drilling pit from the facilities list and adding 1-cuttings pit to the "other" section of facilities. I will make sure this is applied to all form 2A's moving forward.

Thank you !

Subject: EOG 2As - drilling pits

---

Hi Nanette,

There are several new 2As that have come in including:

400157236	Snow Draw	13-20H
400156434	Snow Draw	03-05H
400154346	Fiscus Mesa	26-28H
400154955	Fiscus Mesa	14-15H
400147084	Geary Creek	03-10H & 06-10H

All of these locations indicate a drilling pit. Since EOG uses closed loop drilling and disposes the mud and cuttings offsite, I would like to remove drilling pit from the facilities list and add 1 – cutting pit to the “other” section of facilities. I feel this would add clarity to the 2A moving forward, especially on locations that are in a sensitive area.

Please let me know if you have any questions about this.

Thank you,

Rick
