Will do! (working on whiting at moment, reviewing your email and getting status changed from "in process" to approved".

Soraya,

Just make sure he fixes everything in quickly and sends photo documentation. This should happen in less than 2 weeks.

I contacted Brad Moss of Williams shortly after speaking with you. He was thankful that this was brought to their attention before it got worse and said that they were going to correct this as soon as possible.

I listed this as a violation inspection (inadequate freeboard and erosion issue) but not as an NOAV. (was that okay?) I'll remain in contact with him regarding corrective action compliance.
