Arthur: I incorrectly checked the wrong box for salt sections (which will be encountered) and for rangeland which I knew was rangeland. I was unaware that this was in sensitive water area, but please check the box which states this is in a sensitive area. Can you perform this by simply re-checking the boxes for me or do I need to submit an amended Form 2A? Also, what will be required by us to drill a well in this sensitive water resource area?

Subject: State of Colorado 1-36 2A Document #1635275, Ramsey Property Management LLC

Stephen,

The COGCC is reviewing the Form 2A (#1635275) for the Ramsey Property Management State of Colorado 1-36 location, located in the E/2 SE Sec 36 T34S R43W Baca County, Colorado. The COGCC requires the following changes regarding the data submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA).

1. Construction: The "Will salt Sections be encountered during drilling" tab is checked yes.
 - Please confirm that salt sections will be encountered during drilling.
2. Current and future land use: A review of aerial photos on the COGCC website indicate that the location is rangeland not timber.
 - The current and future land use are required to be amended to rangeland.
3. Sensitive Area: The proposed location falls within the Northern High Plains Designated basin and therefore is considered a sensitive area.
 - The Sensitive Area Tab is required to be changed to Yes.

If you have any questions or concerns please feel free to contact me.

Thanks,

Arthur
