15. Comments:

Water well permit #8771 used for groundwater elevation. Reclamation reference area is on undisturbed ground immediately adjacent to location to the south, as depicted in the stake location picture facing south. A small rig will be used to set surface casing. This will require a lined 25' x 75' x 4' pit that will be immediately reclaimed upon setting surface casing. A rig with closed loop system will be used to drill out from surface casing shoe to TD.
