Permit	Sorry for the delay. Attached are the revised drawings. The well is now 155' west of the power lines. We will drill this well either a "super single" rig that is 70' tall, or a double that is 102' tall. Let me know if you need anything else. Thanks for your patience. Permit	Called Operator discussed moving the subject wellhead to a distance that is 150' or more from the existing power line and requested the height of the derrick" measured from the ground to the top of the crown at the top of the derrick. Waiting on Operator to supply revised survey, revised distances and rig height. JLV	3/29/2011 10:53:43 AM
