Rick, I approve you making revisions to the Form 2A Water Resources section to 1040 feet to nearest surface water and 2560 feet to nearest water well.

I forward revised copies of the location photographs; however I have had to break the attachments down due to size. I have been getting several of the emails back undeliverable.

Thanks.

Pam

I still need revised Location Photographs for this location.

In addition, please approve me revising the Form 2A Water Resources section to 1040 feet to nearest surface water and 2560 feet to nearest water well.

Thank you,
Rick

Hi Rick,

Please find revised attachments for the Marconi 1-1H. Do I need to make any revisions to the 2A form?

Hi Pam,

Since the MARCONI 1-1H well location has moved approximately 200 feet, please send me the following revised attachments and I will attach them to the Form 2A:

- 1) Location Drawing
- 2) Construction Drawing
- 3) Hydrology Map
- 4) Access Road Map
- 5) Location Pictures
- 6) Well Location Plat – this is not needed on the 2A and we can delete the original submittal

Thank you,
Rick
