The well site will be lower in elevation than the pond which KMG feels will not impact the pond. KMG will still implement BMPs in accordance with good engineering practices to mitigate the potential for impacts to surface water from an unintentional discharge. of fluid.

Permit	Changed the following per CL: The building should be 673'. The distance we stated for county road is based off the plat where County Road 8 is 463' FNL is correct. The outbuilding L and the power line K on the location drawing are not longer there. 2 weeks after we staked these wells they burnt down. We can increase the number of wells to 3 on the facilities as we forgot to count the existing well on the location.	6/28/2011 9:08:46 AM
Permit	Requesting confirmation of distance to nearest building, number of wells on pad, distance to overhead power lines, distance to county road. plg.	6/17/2011 3:45:57 PM
