Subject: RE: SLICK ROCK 18-44-7-60 - COGCC Form 2A (Doc 400171337) - Carrizo Oil & Gas Inc

Hi Rick,

1. We are ok with the change to the distance to nearest surface water.
2. The reference area is on undisturbed ground directly adjacent to, and northwest of, the proposed location, as shown in the "northwest" reference area photo.

Thanks,

Subject: SLICK ROCK 18-44-7-60 - COGCC Form 2A (Doc 400171337) - Carrizo Oil & Gas Inc

Fabrianna,

The COGCC is reviewing the SLICK ROCK 18-44-7-60 oil and gas location assessment in the SESE Section 18 T7N R60W, Weld County, and has the following changes and information requests regarding the Form 2A submitted by Carrizo Oil & Gas Inc:

- 1) **Water Resources:** Playas that are intermittently wet are considered surface water. USGS Topographic Maps and aerial photography indicate the presence of several playas in Section 20 southeast of the proposed location. Therefore, COGCC has changed the distance to nearest surface water on the Form 2A from 7920 feet to 2150 feet.
- 2) **Reference Area:** Although a Reference Area Picture facing northwest was supplied, no reference area location information has been supplied. Please supply either a Reference Area Map, or directions regarding the location is the reference area is adjacent to the proposed oil and gas location.

Please contact me with any questions regarding this Form 2A.

Thank you,

Rick Allison, P.G.
