Subject: Windmill 10-34H FORM 2A Document # 400182547, EOG

Jennifer,

The COGCC is reviewing the Form 2A (#400182547) for the EOG Windmill 10-34H location, located in the SESE Sec 34 T5N R62W Weld County, Colorado. The COGCC requests the following changes regarding the data submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA). Land use: Based on a review of aerial photos the location appears to be rangeland not CRP. The aerial photos do not indicate that the location was ever utilized to raise crops.

- Both the current and future land use should be changed to rangeland and reference area photos provided to the COGCC within 12 months.

Please approve the above changes via email. If you have any questions or concerns please feel free to contact me.
