

### **Proposed Best Management Practices**

Encana Oil & Gas (USA), Inc.

Hells Hole G15 2104

Rio Blanco County, CO

The following are a list of Best Management Practices to be used by Encana on this location:

- Use solar panels as an alternative energy source for on-location production equipment, where appropriate, economically and technically feasible.
- Use multiple gathering lines placed in a single trench to minimize disturbance and construction, where appropriate, economically and technically feasible.
- Install pipeline crossings at right angles to the drainages, wetlands, and perennial water bodies, where appropriate, economically and technically feasible.
- Prohibit Encana employees and contractors from carrying projectile weapons on Encana leases.
- Prohibit pets on Encana leases.
- Strategically apply fugitive dust control measures, including enforcing established speed limits on Encana private roads, to reduce fugitive dust and coating of vegetation and deposition in water sources.
- Use enclosed, locking garbage receptacles or implement a strict daily trash removal regime on each temporary or permanent work location.
