### 15. Comments:

Railroad is 3438 +/- feet away from site. There are no visible improvements within 400 feet of the site. Nearest water well is approx. 7444.9 +/- feet from site (RECEIPT:9053325; PERMIT:379;USE: DOMESTIC). There is a very small, dry, ephemeral playa located 110 +/- feet northeast of location. This location is in a sensitive area due to being within the Northern High Plains Designated Basin. No COAs are needed for this location. A Pump Jack may be necessary to place on facility in the future to help with gas production. It will require either one gas or one electric motor to run the pumping jack unit which will be determined at the time of installation.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
