Subject: Leffler South SW-1 Form 2A document # 400188780, PDC

Lisa,

The COGCC is reviewing the Form 2A (#400188780) for the PDC Leffler South SW-1 location, located in the SWSW Sec 1 T6N R66W Weld county, Colorado. The COGCC requests the following changes regarding the data submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA).

COAS: Due to the proximity of various surface water features the following COA will apply to the Leffler South location:

- Operator must implement site-specific best management practices in accordance with good engineering practices, including, but not limited to, construction of a berm or diversion dike, site grading, or other comparable measures, sufficient to protect the irrigation ditches (164' South and 247' North) and ponds (205' and 211' west) as on the attached hydrology map shown from a release of drilling, completion, produced fluids, and chemical products.

If you have any questions or concerns please feel free to contact me.

Arthur
