OGLA	Per Ted Pagano, Investment Equipment is re-entering the hole and do not expect to use mud during the re-entry. They do intend to use fresh water which once brought back to the surface will be disposed at an injection facility. If old mud and cuttings are brought up during the re-entry the will be incorporated into the pad and lease road. Materials will not be spread on the rangeland.	7/19/2011 7:50:04 AM
