OGLA	Attached revised Access Road Maps from operator; Ready to Pass 8/22/2011.	3/9/2011 1:53:46 PM
OGLA	Location is in a sensitive area because shallow ground water is likely present and the shallow subsurface is composed of permeable material. Several monitoring wells (permits 251686, 16605-MH) and water wells (103680, 147745) indicate that shallow ground water is present. Changed the depth to water from 163 feet to 20 feet, and changed the Sensitive Area Designation to Yes.	8/2/2011 10:56:09 AM
