SUNDRY NOTICE

Submit original plus one copy. This form is to be used for general, technical and environmental sundry information. For proposed or completed operations, describe in full on Technical Information Page (Page 2 of this form.) Identify well or other facility by API Number or by OGCC Facility ID. Operator shall send an informational copy of all sundry notices for wells located in High Density Areas to the Local Government Designee (Rule 603b.)

This form is to be completed whenever a Sundry Notice is submitted requiring detailed report of work to be performed or completed. This form shall be transmitted within 30 days of work completed as a "subsequent" report and must accompany Form 4, page 1.

5. DESCRIBE PROPOSED OR COMPLETED OPERATIONS

Operator is requesting variance to Rules 1003, interim reclamation, and 1004, back-filling pits with soils to their original relative positions. It is at the request of the landowner that a depression will remain for wildlife and livestock shelter and opening for water.

The pit will be recontoured to a depression with an access ramp of 4:1 or 5:1 slope on one side of the depression to allow easier access for livestock and or wildlife. Remaining sides of the depression will be broken down to give a slight slope of 2:1 or 3:1.

November 20, 2010

Mr. David Neslin, Director

Ms. Margaret Ash, Field Inspection Manager

Colorado Oil and Gas Conservation Commission

1120 Lincoln Street, Suite 801

Denver, Colorado 80203

Dear Mr. Neslin and Ms. Ash –

I am the owner of the Crazy French Ranch, a 15,000-acre wildlife preserve and hunting operation south of Trinidad, adjoining the state boundary. I have owned and managed this property for nearly two decades, and continue the efforts to enhance wildlife numbers and habitat to this day.

Presco has elected to plug and abandon the five wells originally drilled by Westport, and I have requested they leave the reserve pits – fenced on three sides with a sloping fourth side – open and available for the wildlife to use for water and shelter. During the spring and for most of the summer, these pits reservoir water, and are therefore essential for the sustenance of the elk, deer, bear and cat populations. In addition, they are strategically located at key points on the property where water is typically not available.

Presco has notified me that the COGCC and state agencies will make the final decision concerning the use of the pits for this purpose, and under a variance request, and thus I respectfully request you approve this variance. During the period these pits have been in existence (now over six years), they have become an essential component of my wildlife management and augmentation program.

Thank you for your help in this matter.

Respectfully submitted,

The Crazy French Ranch

Evelyn Jung

Owner
