This From 4 is a request for a variance to the 1000 series rules for final reclamation. The variance pertains to leaving some of the roads "as is" and not reclaiming them at the land owner's request. The roads requested to be left "as is" are identified with a dotted line on the attached map. The specific use of the roads are for improved ranch access in the land owners ranching operations. Also attached is the agreement between Petroglyph and the land owner.

Attachments: Agreement with land owner  
Map of roads and facilities.

Subject: Final reclamation of the CBM wells and facilities on the Rohr Ranch

Dear Mr. and Mrs. Rohr

Thank you for meeting me at your ranch on 7/1/11 to consult on reclamation of the well sites and associated facilities on your property. During that meeting you informed me of which roads to keep "as is" and not reclaim. Those roads are marked with a dotted line on the attached map.

To be able to leave these roads "as is" the COGCC requires Petroglyph to request from the COGCC a variance of the 1000 series rules for final reclamation. The variance request needs to include an agreement between Petroglyph and the landowner concerning the final reclamation and, a specific use of the unclaimed facilities has to be defined in the variance. You have informed me you would like to keep the roads for the specific use of improved ranch access.

If you agree that your requests are accurately described above and on the attached map, please sign and date below and sign and date the map and return to the above address.

Please don't hesitate to contact me if you have any questions.

Best regards

Tom Melland  
District Manager
