Hey Mike,

Please just give the footages on this email and respond to the "exception location" quire on the questions below. That way I can duplicate this email and not the entire form.

The situation with the PDOP must be taken care of as all DPOP information was supposed to submitted by Oct. 31, 2010.

Line # 17

Line # 18

Line # 19

All wells in the State are supposed to have an "as drilled" Lat/Long with PDOP reading. Have you supplied the State with this? It wasn't indicated on this APD.

The original was drilled as an "exception location" due to the proximity to the western lease line. Did you contact the Utah Division of Oil, Gas, & Mining to confirm their previously supplied footage requirements?

Thanks,  
Bill

Hey Mike,  
Please supply the required information:  
Line # 17  
Line # 18  
Line # 19

All wells in the State are supposed to have an "as drilled" Lat/Long with PDOP reading. Have you supplied the State with this? It wasn't indicated on this APD.

The original was drilled as an "exception location" due to the proximity to the western lease line. Did you contact the Utah Division of Oil, Gas, & Mining to confirm their previously supplied footage requirements?

As you are so aware, timing is critical on this. The sooner I get the needed responses the better the chances of getting this out of here.

Bill

Hey Bill,

Thanks for the call....I have a work over rig on the well (after waiting for months) swabbing/evaluating our next step. If there is a delay in the approval, we will probably shut -in as the WOR is \$3500/day and it will be a long wait to re-schedule...sorry for the rush, we have BLM approval and was not expecting any delay with the COGC...thanks, Mike
