Section 17, T2N, R65W

Dear Mr. Sarchet:

Encana Oil & Gas (USA) Inc. ("Encana") staked the Melbon Ranch 33-17 well at a surface location 1942 feet from the south line and 402 feet from the east line of Section 17, Township 2 North, Range 65 West (see attached survey plat). This well is being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's ("COGCC") Rule 318A known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. This rule states that all boundary infill wells be drilled from the same surface locations as previously designated in Rule 318A.a.(1) which reads:

"In the Greater Wattenberg Area ("GWA"), operators may utilize the following described surface drilling locations (GWA windows") to drill, twin, deepen, or recompleat a well (GWA well") and to commingle any or all of the Cretaceous Age formations.

- (1) A square with sides four hundred (400) feet in length, the center of which is the center of any governmental quarter-quarter section ("400' window"); ...

The Melbon Ranch 33-17 well was staked at a location 61' east of the defined 400' window. As this location was staked with your consent and approval, Encana respectfully requests your consent to an exception location for the Melbon Ranch 33-17 Well by waiver of the COGCC Rule 318A.a (1).

Melbon Ranch 33-17
Surface Location - 1942' FSL, 402' FEL
Township 2 North, Range 65 West
Section 17: NE/4SE/4
Weld County, Colorado

Dear Mr. Sarchet:

Encana Oil & Gas (USA) Inc. ("Encana") staked the Melbon Ranch 33-17 well at a surface location 1942 feet from the south line and 402 feet from the east line of Section 17, Township 2 North, Range 65 West (see attached survey plat). This well is being drilled under the rules and regulations of the Colorado Oil and Gas Conservation Commission's (COGCC") Rule 318A, known as the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. Rule 318A.c.(2) states:

"When the operator is requesting a surface well location greater than fifty (50) feet from a well (unless safety or mechanical considerations of the well to be twinned or topographical or surface constraints justify a location greater than fifty (50) feet), the operator shall provide a consent to the exception signed by the surface owner on which the well is proposed to be located in order for the Director to approve the well location administratively."

The Melbon Ranch 33-17 was staked at a location 98' southeast of the existing Melbon Ranch 43-17 well located in the same drilling window. As this location was staked with your consent and approval, Encana respectfully requests your consent to an exception location for the Melbon Ranch 33-17 by waiver of the COGCC Rule 318A.c.(1).

If this meets with your approval, please sign and date both originals of the letter, keeping one for your files and returning one to the undersigned.
