Hi Nancy,

You are right. The distance I measured using the survey plats is at 796' from the 43-6B. Can you please modify the form?

Thanks,

Liz Lindow

Liz,

In looking at this Form 2, it appears that it might have been prepared before the 43-6B was submitted.

The distance to nearest well is reported at 998 ft, which is distance to 23-6, but the 43-6B plots at about 780. Could you verify? I can modify the form with your approval, based on information you provide.

Thanks,

Nancy
